When Ranbir went missing!

The actor took off in between the shoot of a cola brand's new ad film — that also features **Priyanka Chopra** and **MS Dhoni** — to gorge on roadside *pani puris*

Aakanksha Naval-Shetye

Ranbir Kapoor almost had the ad filmmakers of the cola brand that he endorses hit panic button when he sud-

denly took off in between the shoot. Elaborating on what happened, an insider reveals that they were shooting for the commercial of the cola brand on the crowded streets of Malad, when Ranbir left the car to gorge on *pani puris* at a nearby stall.

"The scene required Ranbir to be shown sitting in the car stuck in a traffic jam with his friend and then suddenly take off. But at one point, Ranbir actually took off before we could realise what was happening. We found out that he had wandered off

to a nearby stall to have *pani puris*. Everyone around was too shocked to see Ranbir amidst them to even react, including the *thelewaale*," says the insider. "It was quite a coincidence as we were shooting Ranbir feeling impatient and he was actually craving for street food for real. So, while we all panicked to see him head towards a *pani puri* stall, it was interesting to see the crowds gather around to count the number of *pani puris* he had," adds the insider.

Talking about the latest TV commercial of the cola brand, the insider adds that apart from Ranbir, it will also feature Priyanka Chopra in a rockstar avatar and MS Dhoni playing cricket on the field. "Priyanka will be looking like an absolute diva. She is wearing a black leather corset, coupled with sequined black shorts and a unique silver neckpiece specially customised by her personal stylist," reveals the source.

"This new commercial not only captures the impatience of our generation, but also our ability to take risks in order to achieve our dreams. It was great fun shooting for the commercial which captures my new, musical side," shares Priyanka.
